## Proposal for Legislative Information on the Patient Protection and Affordable Care Act

### Primary Outcomes - Legislators will understand:

- Major components of the Patient Protection and Affordable Care Act (act) that require action by state policy makers or that could have a budgetary impact
- What other states are doing to implement those provisions of the act or to take action to prevent those provisions from going into effect
- How the act influences appropriation decisions next session
- What actions will or might occur during the interim to affect the act

### Potential Corollary Outcomes - Legislators may begin consideration of whether to:

- Develop and adopt a strategy to monitor interim activities related to implementation of the act
- Make statutory/appropriation changes to implement legislative priorities in relationship to implementation of the act

### Suggested Audience/Timing for Training

- Primary audience - DFHHS and General Government appropriation subcommittees and House and Senate standing committees for public health and human services, business, labor and economic affairs, and potentially state administration
- Information session proposed for Friday, January 14<sup>th</sup> pending NCSL staff availability
